

## Perfect Tense Bingo

### Tutor Notes:

Read out the French sentences in a random order. The learners listen and highlight / cover up if they think they have got the sentence in English on their Bingo card. It is useful to also number the sentences as you say them and to ask the learners to add the number to their Bingo card too – this makes checking answers much easier.

In addition to the French and English Master Copies below, there are 4 different Bingo Cards. If you have more than 4 groups these can be duplicated.
