

Subjunctive or Not Battleships

Activity Explanation

This activity can work in pairs with one learner playing against another learner or as a whole group. If you are working as a whole group, you could partner up learners so that they can work together.

Step 1: Either in pairs or individually, learners create 6 – 8 sentences choosing a sentence from the blue column and completing it with a clause from the peach row. For each sentence created, they highlight the box where the sentences meet. For example: **“I feel very stressed out because I am doing too much”**. The learners can also decide if their sentence requires the subjunctive or not. They should have 6 – 8 squares coloured in on their table which are their ‘ships’.

Step 2: Learners then take it in turn to create other sentences and to read these out loud in French to see if they can ‘hit’ other learners’ ‘ships.’ If they hit a ship, they can tick the box. If they miss, they can put a cross in the box so that they don’t repeat the same sentence.

The winners will be those who hit the most ships.

	so that I can clear my head!	although I sleep at least 8 hours a night	so I must do more physical activity	although I don't do very much	because I am doing too much	so I must make an effort to eat better	unless I get back into shape	so that I can let my hair down!
I am always tired at the moment								
I feel very stressed out								
I have joined a gym								
I want to go on holiday								
I will make myself ill								
I am not sleeping very well at the moment								
I need to spend more time with friends
